

KidsTown in Denver CO offers coupons to tired parents this 2023 holiday season

This time of year can be extremely stressful for parents. Because of this, KidsTown Drop-in Child Care Centers in Colorado is offering \$10 off for first-time families.

Denver, Colorado Dec 14, 2023 ([Issuewire.com](https://www.issuewire.com)) - Everyone knows that the holiday season can be crazy. Unfortunately, the craziest and most jam-packed schedules seem to fall almost exclusively upon families with kiddos. With travel, shopping, gifts, family visits, cooking, and more, it is a stressful time of year for both moms and dads.

KidsTown Drop-In Child Care seems to perfectly understand how hard the holiday season can be for parents. To address this need, they offer care at three locations in the Denver Area. Providing walk-in, flexible care from 15 minutes to 6 hours, Saturday care, and late-night care for kiddos 1-13 years old, KidsTown is already making its mark serving parents and alleviating stress in the Denver Area.

To make themselves even more attractive to overworked parents, Kids Town is offering two \$10 off coupons to families this 2023 holiday season. New parents can receive one coupon for \$10 off the first drop-in daycare they schedule, and all parents can receive \$10 off their costs for time scheduled the

week before Christmas. Both coupons are one use per family but Kids Town does allow the combination of coupons for new families.

While it may be difficult, parents should try to remember self-care this holiday season. Parents who can take care of themselves by "taking a break" will be more present for their children during the many festivities this season has to offer.
