

Susan Nasab, MD, FACOG, a Reproductive Endocrinologist and Infertility Specialist with Reproductive Fertility Center

Get to know Reproductive Endocrinologist and Infertility Specialist Dr. Susan Nasab, who serves patients throughout the State of California.

New York City, New York Dec 21, 2023 ([IssueWire.com](https://www.issuewire.com)) - Dr. Nasab is not merely a physician; she is a trailblazer, visionary, and compassionate advocate for patient care. Her remarkable journey in the field of women's health has left an indelible mark on the global healthcare landscape. With a wealth of educational achievements and an unwavering dedication to clinical excellence, she stands as a global physician champion.

Within the complex domains of fertility preservation, InVitro Fertilization, and reproductive surgery, Dr. Nasab has found her professional passion. Her extensive and exceptional training in treating multiple fertility conditions, such as PCOS, recurrent pregnancy loss, low ovarian reserves, and fertility preservation, has honed her surgical skills to a remarkable level.

At the Reproductive Fertility Center, she has successfully managed a diverse spectrum of fertility diseases, earning the trust and admiration of both colleagues and patients alike.

Throughout her academic career, Dr. Nasab graduated from Iran University of Medical Sciences and received specialized training in obstetrics and gynecology at the University of Texas Health Science Center in Houston, Texas. Her pursuit of excellence led her to complete a distinguished fellowship in reproductive endocrinology and infertility at Johns Hopkins University in Maryland.

Showcasing her commitment to excellence in her field, Dr. Nasab is board-certified in obstetrics and gynecology by the American Board of Obstetrics and Gynecology (ABOG). The ABOG is a non-profit organization that provides board certification for practicing obstetricians and gynecologists in the United States and Canada.

In addition to her medical expertise, Dr. Nasab possesses a special interest and talent in digital health. As the Global Executive Medical Director at Lyons Global, she leverages her wealth of experience to drive digital health transformation on a global scale. Leading international medical directors and developing medical networks in different regions around the world, she excels in developing cutting-edge digital health platforms and providing invaluable guidance on the use of medical robotics, bridging the gap between healthcare professionals and patients. Her deep experience in digital health has revolutionized healthcare access, enhancing patient satisfaction and improving physician efficiency. Her clear vision is to deliver care, anywhere, anytime, globally.

A Fellow of the American College of Obstetricians and Gynecologists (ACOG), Dr. Nasab is also an active member of the Society of Reproductive Endocrinology and Infertility, the Pacific Coast Reproductive Society, and the American Society of Reproductive Medicine.

Reproductive endocrinology and infertility (REI) is a surgical subspecialty of obstetrics and gynecology that trains physicians in reproductive medicine addressing hormonal functioning as it pertains to reproduction, as well as the issue of infertility. While most REI specialists primarily focus on the treatment of infertility, reproductive endocrinologists are trained to evaluate and treat hormonal dysfunctions in females and males outside after the reproductive years.

Dr. Nasab's impact on medical knowledge is substantial, marked by a prolific body of work including numerous publications and presentations at prestigious international and national meetings. Her research, published in esteemed journals like "Fertility and Sterility" and "The Journal of Assisted Reproduction and Genetics (JARAG)," has not only ignited discussions but also propelled the field of

women's health forward.

Further disseminating her expertise and insights in the field, Dr. Nasab's exceptional talent in public relations and educational media coverage has made her a sought-after speaker, both nationally and internationally. Her words resonate with audiences worldwide, inspiring a new generation of healthcare professionals and empowering individuals to take charge of their health. She currently serves as the Director of Video Marketing at the Society of Assisted Reproductive Technology (SART).

Dr. Nasab's remarkable attitude, combined with her exceptional knowledge and communication skills, positions her as an extraordinary patient advocate in the realm of reproductive healthcare. Her success is a result of her unwavering dedication to her profession, marked by years of proving herself and investing countless hours in research. She is now eager to share the wealth of knowledge and experience she has gained, believing it will significantly benefit her patients.

Beyond her sterling medical achievements, Dr. Susan Nasab is a well-rounded individual. In addition to her medical expertise, she is a multilingual communicator, fluent in English, and proficient in Arabic, Deutsch, Farsi, and French. Her ability to connect with patients and colleagues from diverse backgrounds enhances her effectiveness as a healthcare professional.
