

THINKWARE Announces Exclusive Dash Cam Offers for Boxing Day and New Year Celebrations

London, United Kingdom Dec 25, 2023 ([Issuewire.com](https://www.issuewire.com)) - As the New Year approaches, THINKWARE, a world-leading dash cam brand, is streamlining the search for the perfect gift. By offering discounts of up to £70 on some of its best-selling dash cam models, THINKWARE presents incredible deals suitable for every type of driver.

For anyone looking for a basic front-facing dash cam capable of recording footage while both stationary and on the move, the F100 2CH GPS (sale price £135, down from £159) provides a 135° wide-angle lens and records in 1080P Full HD at 30 FPS. An optional GPS antenna is available. It's a superb little camera for the price.

If a higher resolution camera is desired, the Q1000 2CH (which has a £34 discount) can deliver 2K QHD (2560 x 1440) at 30 FPS – both day and night. The parking surveillance mode is both motion and impact-activated, helping to preserve battery life while ensuring that you are always covered.

For buyers looking for a bundle deal, the Q1000 2CH + RADAR (sale price £375, down from £398.99) is an attractive proposition, enhancing the dash cam's already impressive performance with significantly extended battery life and the ability to detect motion from 7 meters away. With a range of approximately 80 degrees horizontally and 35 degrees vertically, there's not much that the Q1000 2CH + RADAR kit will miss.

In the touch screen dash cam range, the X800 2CH GPS (sale price £179, down from £249) represents stunning value. Delivering 1440p QHD on its front camera and 1080p through its rear-facing camera, it ensures that you'll have the footage you need when you need it. The touchscreen interface makes navigation and control incredibly simple, and the energy-saving features work to ensure that your dash cam is always on when you need it to be.

Additionally, THINKWARE's cutting-edge U3000 2CH dash cam has been reduced from £529 to £509. The THINKWARE Boxing Day and New Year sale, lasting until 15th January, presents the perfect chance to pick out the ideal gift, be it for someone special or a treat for yourself.

A THINKWARE representative comments: 'More than half of Brits already have a dash cam installed, and a further 22% are currently considering making a purchase, making dash cams one of the must-have pieces of tech of the moment. But the thing is, unlike many gadgets, dash cams aren't just a piece of mindless entertainment. They help to keep you safe, to protect your property, and to ensure that you are never unjustly found to be liable for an accident that simply wasn't your fault. So, in giving someone the gift of a dash cam, you're giving them something of real value, and we think that's a wonderful thing.'
