The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Endocrinology is a branch of medicine dealing with the Endocrine system, its diseases, and its specific secretions known as hormones. Endocrinologists have the training to diagnose and treat hormonal imbalances, deficiencies, or over-secretion of hormones in the body. The common diseases and disorders of the Endocrine system that Endocrinologists deal with include diabetes mellitus, adrenal, pituitary, bone disorders, reproductive disorders, weight disorders, cholesterol problems, polycystic ovary syndrome, and thyroid issues, among others.
