Army Veteran Kimberly Cloud Earns Second Master's Degree from Colorado Technical University

Her forthcoming autobiography explores education, business, and the future of science. She is also scheduled to share her Army story in a Veterans History Project interview.

CLOUD
U.S. ARMY

Moore, Oklahoma Nov 16, 2026 (Issuewire.com) - Kimberly Cloud, an African American U.S. Army veteran, author, and founder of The Kimberly Cloud Show 2.0 LLC, earned her second master's degree on November 9, 2026. She received a Master of Science in Management with a concentration in Organizational Leadership and Change from Colorado Technical University. Her educational journey includes an associate degree, a bachelor's degree, and two master's degrees.

The National Center for Education Statistics reported that U.S. postsecondary institutions awarded 1,008,285 associate degrees, 2,015,035 bachelor's degrees, and 880,249 master's degrees in the 2021–22 academic year. Of the master's degrees awarded that year, 99,068, or about 11.3 percent, went to students in the federal data's Black category. These figures count degrees awarded. The U.S. Census Bureau's American Community Survey records a person's highest level of education, so its figures cannot show how many people pursue or complete a second master's degree.

Cloud also filed a Statement of Candidacy with the Federal Election Commission for the 2028 U.S. presidential election, listing a Republican Party affiliation. The FEC's public candidate data do not include race or ethnicity, so those records cannot establish how many African American candidates have filed for 2028. In 1972, Shirley Chisholm became the first African American woman to seek a major party's presidential nomination. In 2008, Barack Obama became the first African American elected president of the United States.

Cloud's forthcoming autobiography, *Stretching the Unknown: An Autobiography of Education, Business, and the Future of Science*, traces her experiences in education and entrepreneurship and her interest in the future of science. The Kindle and paperback editions are under review through Amazon Kindle Direct Publishing, with availability anticipated on November 18, 2026. The planned U.S. prices are $9.99 for Kindle and $12.99 for paperback.

On November 18, 2026, at 12:30 p.m. Central time, Cloud is scheduled to be interviewed by the Oklahoma Oral History Research Program for the Veterans History Project. The interview will preserve her account of her Army service in her own words.

Cloud plans to submit an honorary street sign application on November 16 and research potential locations for the proposed sign. She also anticipates having her name engraved through the Oklahoma Historical Society's Red River Journey by January 2027. She is affiliated with the U.S. Chamber of Commerce and the Moore Chamber of Commerce.

About The Kimberly Cloud Show 2.0 LLC

Founded and hosted by Kimberly Cloud, The Kimberly Cloud Show 2.0 features interviews about guests' careers, personal experiences, and the lessons they have learned along the way. For interviews or information about the autobiography, contact Kimberly Cloud at thekimberlycloudshow@yahoo.com.
