concerns about the clarification of the election as outlined in the Constitution.

Acknowledging historical complexities for the State of Loc Nation Party, I believe it is imperative to address the fundamental principles upon which our nation was founded and address raised fraudulent activities revealed during the Jan 6 hearing and various historical claims amongst Trumps cries of fraudulent election practices, said live at the GOP California Convention in Anaheim, CA.

“I look forward to the elector's providing guidance on the next steps towards my appointed position as President.”said soon to be President Clement.

We must address any irregularities and uphold the democratic values that define our nation. President Candidate Clement looks forward to serving the American people globally while the Electors et al provides focus on the next steps while handling the necessary decertifying roles. In these documents, President Candidate Clement accepts said roles as President and initiates a long-overdue 400+ year massacre class action directed to the District Court for proper addressing and remedies to the Afro communities affected. This aims to ensure that the contributions of citizens to the history of the United States globally are duly rewarded for the benefit of future generations. President Clement extends a sincere apology to all original inhabitants for historical wrongs and vows to mend these grievances. For more details, citizens can refer to Volume 3 of "Revealed: The Kingdom of Locs Nazirite Vow Continues." With President Clement at the helm, a community of 1.4 trillion individuals, previously overlooked, joins hands for a united and improved vision for America. In this moment of transition, President Clement envisions a proud and improved America, building upon the strengths of its diverse population and correcting historical injustices.
