

Ecuador Rings in the New Year with Powerful Plant-Based Ingredients

A Fresh Month with Potent Plant-Based Ingredients Ready for Global Markets

Clifton, New Jersey Jan 4, 2024 ([IssueWire.com](https://www.issuewire.com)) - [Ecuadorian Rainforest](https://www.intotherainforest.com), a prominent wholesale supplier of natural ingredients, is delighted to announce new exclusive discounts during the month of January, ushering in the New Year with new offerings.

As we welcome the New Year, our focus turns to Aloe Vera Powder—sourced with meticulous care for its quality. Filled with essential vitamins such as A, B12, and C, and vital minerals including zinc and copper, this botanical extract extends beyond its regular applications. It plays a vital role within the food, cosmetic, and beverage industries, contributing to the formulation of different products and medicinal applications.

Presenting an exclusive assortment for the new month, Ecuadorian Rainforest unveils a varied collection featuring Licorice Root Powder, Butcher's Broom Powder, Acacia Gum Powder, and Astragalus Powder. Each ingredient boasts its distinctive profile and versatile applications, tailored to meet the diverse needs of different industries. Explore an extensive range, with numerous additional offerings accessible on our website.

For 20 years, the Ecuadorian Rainforest has expertly combined stringent quality control with sustainable sourcing practices. Established in 1997 by Marlene Siegel, the company proudly offers over 1,000 diverse ingredients. Committed to upholding high-quality standards, each product surpasses expectations, embodying excellence.
