Data now shows that over 81% of shoppers research a business online before making a decision.

- Shoppers who research online
- Shoppers who don't research online

Houston, Texas Jan 30, 2024 ([Issuewire.com](https://www.issuewire.com)) - Making a business successful in today's world starts by building a strong online presence and making an SEO-optimized, well-performing website is the first step for it. Homeserv Rocket is the perfect partner in this journey offering its easy, affordable, and effective service to make the dream home website service. With the company, anyone who owns a home service business and plans to build a custom website with powerful and constructive features. The company allows growth as the clients want with their add-ons, expertise, integrations, and more. The website of Homeserv Rocket offers its products and services in a total of four categories - Design, Core Features, Integrations, and Add-ons. By clicking on any of these features clients can start with building their dream home service website right away!

Anyone who is looking to make a home service website can choose the company as their ideal partner as not only the services are spot on, and effective, but they also cost less than other services with big price tags. One of the most popular services of the company is its section of Design which helps its clients bring life to their business. Homeserv Rocket understands the importance of brand in today's world of enchantment and relevancy. This is why every design that the company offers guarantees that it is matched with the businesses it is dealing with. Any design of a website is primarily created to convey the brand value and message. With the expert website designers at the company, clients can stay assured that the website will turn out to be the most convincing, placing them as the best local option.

Homeserv Rocket offers expert design services that let the home service brands tell their story in their

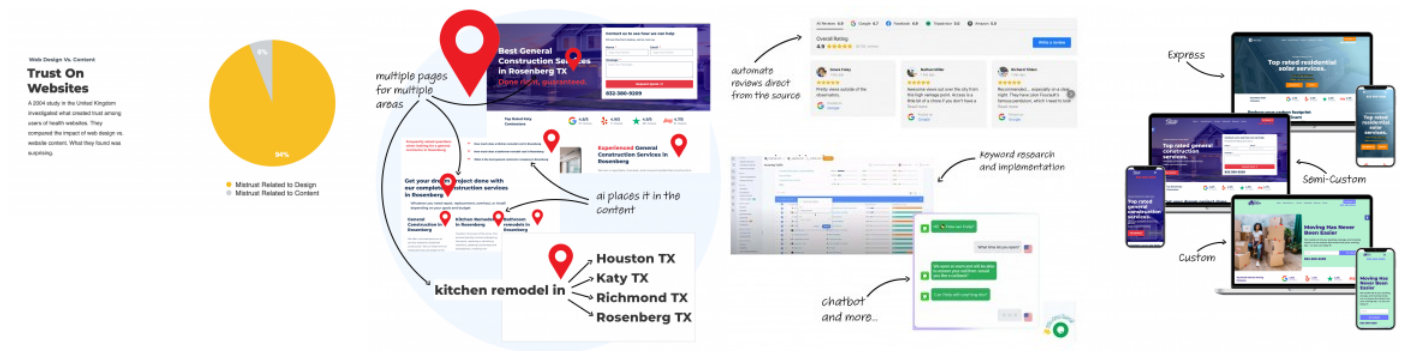

own words and showcase what the businesses have to offer. It also allows businesses to explain and establish themselves as the best local option. Moreover, the website also offers customizable websites that apply to services, clients, and demographics. With this option, the business can make their vision, their dream look come true with expert service. On the website, there are three levels of design that a business can choose from. These levels are basic, semi-custom, and custom. The basic website option works great for clients who want to get their website live in a record time. The clients just need to put in some basic information, and a business logo if available and the site will be up and running in no time.

The next level is semi-custom where the businesses will get an option to choose from the 3 ready website designs at a starting point. Then the clients can work with the expert team to customize the site however they want. The third option is getting a customized website for home services, which will give the brand a result that is unique to the business. The expert designers will work with the vision that the client has and will turn it into a website that tells the story of the business and what it has to offer. This is the best option for those clients who want to reach their online goals their way. The results of the three levels are simplified for what works to give maximum results. Every design by the company will come with search and landing pages, optimized design with a flow that builds trust among the visitors, along with CTA's and pop-ups to convert visitors into paying customers.

The next service that Homeserv Rocket offers is the core features of the website to drive better results. All of the core features of the website are designed to grow business online, however, by combining them, the website becomes a game-changing power for the business. With the effective tools from the website, brands can position themselves as a go-to local pro by targeting the potential customers in the areas they serve. The tools will help brands craft unique content based on demographics that can be targeted by city, town, area, neighborhood, zip code, and more. The lead capture tools will help businesses with optimized conversions and lead capture. Every page under the company's service will be crafted with social proof and reviews, building trust and expertise. Additionally, the webpages will also automatically connect leads to the CRM.

Homeserv Rocket's SEO and content tools help grow local authority for local searches. These tools include advanced blog publishing tools and assisted SEO settings for better rankings on the Search Engine Results Page (SERPs). The tools also offer lead management where clients can view lead data, manage it, and connect it with the preferred CRM to integrate seamlessly with sales. Moreover, it also offers keyword variation in pages that creates further SEO depth and ranks the website in a better position. The 6 core marketing tools that the website offers are Hyperlocal Search Pages, Landing Pages, Reviews, Blog, Engagement, and Lead Manager. Every site crafted with Homeserv Rocket design, SEO, and marketing tools is mobile optimized, speed optimized, and designed for conversion with upgrades available. Another product of the website is Add-Ons which any client can get at any point in their deal with the company. These add-ons are perfect to make the already set website even more functional. These add-ons include Premium Support which gets the fastest response and helps with any issue, Premium Speed and Security which offers increased speed for user experience, and Keyword Research and Implementation helping with the exact keywords that are trending.

The add-ons also include Reviews Direct from Sources such as Google, Trust Pilot, Houzz, Angi, Yelp, and more, Logo Design with 3 conceptualized logos, Brand colors with 3 conceptualized sets of brand identity colors, Create Copy for the copy of the website, etc. Clients can also get options for ADA Compliance Premium, Chatbot, and Writing Service. The website also offers bundle services such as Security, Speed, & Premium Support, and Launch Package - Logo and Brand Colors. But that is not it, V also offers Integration services for CRM, Managed PPC, Managed Social Ads & Retargeting, Managed Email Ads, and Direct Mail & Web.
