

New World Record Flipping Cards!

He says more records to come!

Pasadena, California Jan 18, 2024 ([Issuewire.com](http://www.Issuewire.com)) - On January 14, 2024, Charles (Chuck) Perry Trigilio broke the world record for flipping over a deck of cards in 15.52 seconds.

In the video, he promises more dealing records to come. He is looking to add several more records to his credit this year.

This particular record is unique in card dealing and his style is different than most dealers. In the video, you can hear the "popping" sound as the cards are released.

What makes this more incredible is that, at age 60, he has arthritis in his left index finger and can still handle the cards as quickly as he does.

In addition, he has a submission being verified by the Guinness Book of World Records for the most shuffles in one minute.

Chuck began dealing in 1986 and has dealt for several Los Angeles area card rooms. His experience also includes dealing with major celebrities at charitable and fundraising events.

Chuck currently teaches poker dealing in a Los Angeles area card room.

Chuck is available for dealing at any kind of event, fundraiser, company party, birthday party, and more in the Southern California area. He can be reached at pokerdealerchuck@gmail.com.
