

Patricia Ann Linnell, Recognized by BestAgents.us as a 2023 Top Agent

Having built her business primarily on personal referrals and sales success, Patricia has become the trusted beacon for those navigating the intricate world of real estate.

New York City, New York Jan 22, 2024 ([IssueWire.com](https://www.issuewire.com)) - Patricia (Pat) is a professional REALTOR® based in Ocean Isle Beach, North Carolina, working with ASAP Realty. Her expertise extends to residential sales, including second homes as well as retirement and investment properties.

With an impressive career spanning over two decades in Connecticut, Patricia successfully managed several prominent franchises before embarking on her own entrepreneurial journey with the establishment of Linnell Real Estate. She grew the agency to a successful and competitive level until her company was acquired by a larger firm in 2006.

In 2011, Patricia and her husband made a bold move to North Carolina, where she has been passionately guiding buyers in uncovering their personal “paradise” ever since.

“I was so excited when I joined ASAP where I can take advantage of the experience, knowledge of the area, and expertise of the company. Ryan and I both feel that real estate is still, despite the advances in technology, a person-to-person business where hand-holding and caring play a major role in the ultimate success of each transaction, as well as the company.”

Holding licenses in both North Carolina and South Carolina, Patricia brings a wealth of knowledge and expertise to the real estate landscape. Her commitment to excellence is underscored by her notable achievements, including being a Graduate, of REALTOR® Institute (GRI), e-Pro Technology Certified, and a Resort and Second Property Specialist (RSPS).

Attributing her success to integrity, determination, and a genuine passion for assisting others, Patricia relentlessly advocates for both buyers and sellers. She ensures a seamless process that consistently exceeds the needs and expectations of her clients.
