

S2 Labs partners with NetApp to provide Full Training

Jaipur, Rajasthan Jan 8, 2024 ([Issuewire.com](https://www.issuewire.com)) - S2 Labs, a distinguished leader in Salesforce training and education, is delighted to announce a strategic partnership with NetApp, a global technology giant. This partnership is set to provide a comprehensive training program for members of NetApp to excel in the ever-evolving world of technology and business.

NetApp is a powerhouse known for its pioneering solutions in the field of data infrastructure. S2 Labs' partnership with it is to elevate the standards of comprehensive training. This partnership is poised to provide unmatched value to technology enthusiasts and NetApp employees looking to stay ahead in their fields.

"The partnership between S2 Labs and NetApp is far from simple; it's groundbreaking," said Siddhika Jain, Training Manager at S2 Labs. "We share a common vision of delivering transformative training solutions, and with NetApp's global influence and S2 Labs' dedication to excellence, we're confident that this partnership will redefine comprehensive training."

By seamlessly integrating industry expertise with commitment to innovation, we envision setting a new standard for immersive and future-focused training experiences, empowering individuals and organizations to thrive in the rapidly evolving landscape of technology and skill development."

Next-Gen Learning: S2 Labs and NetApp Join Forces for Expert-Led Training in a Seamless Environment

This collaboration marks the inception of a forward-thinking era in comprehensive training. With S2 Labs' expertise and the abundant opportunities from NetApp, anticipate a groundbreaking journey in education and skill development and the following benefits:

- **Expert-Led Training:** Learn from accomplished experts at S2 Labs, renowned for their knowledge of the technology industry.
- **Seamless access:** Participants can seamlessly access training for Admin, Developer, and LWC within the familiar S2 Labs environment.
- **Flexible Curriculum:** Expect a state-of-the-art curriculum designed to keep you at the forefront of technology and business trends with personalized options.
- **Hands-On Learning:** Put your knowledge into practice with practical exercises and real-world projects.
- **Community Support:** Connect with a vibrant community of fellow learners and professionals.
- **Quality learning:** Improvised learning directed through industry-tested methods and approaches with support from on-site innovations given by NetApp employee feedback.
- **Additional updates:** Training designed for both experts and newcomers with additional updates for future-oriented delivery.
