

“Sinaha Technology” Launches in Abu Dhabi to Drive Industrial Sector with Next-Gen Robotics and Drones

During UMEX and SimTex, in Abu Dhabi

Abu Zabi, United Arab Emirates Jan 25, 2024 ([IssueWire.com](https://www.issuewire.com)) - "Sinaha Technology" Launches in Abu Dhabi to Drive Industrial Sector with Next-Gen Robotics and Drones

"Sinaha Platform", UAE's unified platform, announced the establishment of "Sinaha Technology" in partnership with international partners with expertise in AI, automation, and AT solutions, to support various sectors with business-enabling solutions.

"Sinaha Technology" is the first company of its kind in Abu Dhabi to specialize entirely in establishing AT projects and producing technologies through AI, in line with Abu Dhabi's growth and technological goals.

HE Mohammed bin Salem bin Kardus Al Ameri, Chairman of "Sinaha Technology", said, "We are keen to enhance technology transformation services in the UAE by providing a wide range of technological solutions for companies that support several strategic sectors".

"we will focus on supporting the oil and gas sectors by adding autonomous drones, smart storage systems, pump technologies, additive technologies, mechanical drilling, low- and medium-voltage pipelines, advanced logistics solutions, production of advanced robots, automation solutions, trucks, automotive equipment," he added.

During UMEX and SimTex, which is being held in Abu Dhabi from January 23 to 25, 2024, "Sinaha Technology" will showcase its portfolio of unmanned technologies, to introduce its services to potential partners and customers.
