Strainsforpains, Inc. announces corporate update

Strainsforpains (OTC:EBYH) announces corporate update

New York City, New York Jan 12, 2024 (Issuewire.com) - Strainsforpains, Inc. Announces Corporate Update (NY, NY)-(January 11, 2024)-(Strainsforpains, Inc.)(OTC Markets: EBYH).

Strainsforpains, Inc. is pleased to announce it has closed out 2023 with its largest orders to date, valued at $65,000, from various health markets, including Forces of Nature, Portokali, and other prominent establishments in New York City. This significant achievement marks a major milestone for our company and underscores the increasing demand for Strainsforpains' high-quality products. With this significant order, Strainsforpains will deliver its products, renowned for their exceptional quality and effectiveness. The company continues its collaboration with Popped, a NYC company, to jointly develop products and services with anticipated sales of six hundred thousand dollars by the end of 2024.

With a commitment to meeting the growing demand for its signature brand and product line, Strainsforpains has ambitious plans for 2024. Our other product line features water-soluble technology, a cutting-edge technology that distinguishes our products in the market, offering superior benefits to our clients. By diversifying its product offerings, the company aims to cater to a broader range of customer needs and solidify its position in the healthcare industry.

The data technology division, which collaborates with hospitals and physicians, is also expected to experience a substantial increase in sales in 2024. Our app is currently being upgraded to position itself as a leading educational tool for pain management operations at hospitals and with doctors specializing in pain relief. The company collaborates with NYU, Teva Pharmaceuticals, and other major US and international Mr. Shainberg, president of Strainsforpains, expressed his satisfaction, stating "We are thrilled to conclude 2023 with our most substantial orders to date and anticipate an outstanding 2024, as we introduce our signature brand and product line to the market". This order consists of a cream-based product, designed for pain relief related to muscle pain and bone ailments. It positions Strainsforpains to make a significant impact in the health and wellness industry and establish itself as a leader in effective pain relief solutions. The projected market demand for Strainsforpains' signature brand and product line is highly promising.

l organizations to share data. Poised for swift growth and success, Strainsforpains is embarking on its journey to offer a compelling range of products and services. The company acknowledges the powerful synergy between telehealth platforms and high-quality pain relief products, laying the foundation for a promising venture ahead.

To meet the expected demand in 2024, Strainsforpains plans to increase production capacity. The ongoing rehabilitation of its 6-acre facility in Pennsylvania will enable potential use for manufacturing and distribution in the event of a significant increase in demand. This strategic move aims to scale up operations without compromising product quality.

Strainsforpains has conducted extensive market research and analysis to support our optimistic projections for 2024. The pain management market is constantly growing, with consumers increasingly seeking high-quality and unique products and services. Our commitment to innovation, superior quality, and customer satisfaction positions us well to capitalize on this market trend and drive substantial growth in the coming year.

In summary, Strainsforpains, Inc. is delighted to announce the successful culmination of its largest orders to date, secured from establishments based in New York City. This accomplishment stands as a testament to the trust and confidence that our customers place in our products. Leveraging our full spectrum offerings, our cutting-edge water-soluble liposomal technology, and our data technology, we are strategically positioned to play a pivotal role in the dynamic health and wellness industry, poised for substantial growth in the upcoming year.
