

The Whiteboard Academy PV-Pro Course: A Comprehensive Pharmacovigilance Training and Internship Program in February

The Whiteboard

Hyderabad, Telangana Jan 29, 2024 ([Issuewire.com](https://www.issuewire.com)) - The Whiteboard Academy proudly announces the new batch for PV-Pro, an all-encompassing Pharmacovigilance Training and Internship program designed to provide in-depth and practical education in the field.

The course, spanning 3 months, offers a perfect combination of theoretical learning and hands-on experience, inviting aspiring professionals to 'Learn - Practice - Experience - Master' the intricacies of Pharmacovigilance. Conducted in a virtual classroom setup, this program caters to the surging demand for trained pharmacovigilance associates.

Pharmacovigilance, a critical branch of pharmacological science, focuses on detecting, assessing, and preventing adverse effects of drugs throughout their lifecycle. From drug research and development to post-marketing surveillance, ensuring drug safety remains a pivotal task involving regulatory authorities, pharmaceutical industries, and prescribing physicians.

The course curriculum encompasses a comprehensive overview and hands-on training in Pharmacovigilance processes, including case assessment, data entry, medical coding, and narrative writing. It delves into global pharmacovigilance regulations, safety database management, signal detection, risk management among other critical facets.

Program Highlights:

- Access to Clinical Trial Domain Database
- Industry-recognized Course Completion Certificate
- Hands-on Experience on Simulated Real-time Projects
- Placement Assistance and Experience Letter
- Regular Assessments and Mentorship Sessions

Course Features:

- Work on Simulated Real-time Projects

- Regular Assessments to Enhance Performance
- Access to Safety Database - Clinevo Safety
- Fortnightly Group Mentorship with Industry Experts
- Personalized Feedback on Assignments and Projects

The program welcomes candidates from diverse educational backgrounds including Life Sciences (M.Pharmacy, B.Pharmacy, M.Sc.), MBBS, BDS, BHMS, and BAMS. Successful completion of the course promises industry exposure, invaluable experience, and the essential skill set required to excel in the pharmacovigilance domain.

For more information about PV-Pro and enrollment details, interested candidates are encouraged to visit the [Pharmacovigilance Course](#).
