

Thomas Frimpong, DO, a Neurosurgeon with SpineMed Specialists

Get to know Neurosurgeon Dr. Thomas Frimpong, who serves patients in Wichita, Kansas.

New York City, New York Jan 3, 2024 ([Issuewire.com](https://www.issuewire.com)) - A board-certified neurosurgeon, Dr. Frimpong is the Medical Director and CEO of SpineMed Specialists, a prominent neurosurgery and pain management practice in Wichita, Kansas.

With over 30 years of combined experience, the multidisciplinary team at SpineMed Specialists takes a collaborative approach to providing compassionate care and effective treatment options. They understand that patients play an integral role in the decision-making process, and they work diligently with primary care and referring physicians to ensure continuity of care. Their commitment to innovation and personalized treatment has resulted in positive outcomes for tens of thousands of patients suffering from debilitating back and neck pain.

In June 2008, Dr. Frimpong attained his Doctor of Osteopathic Medicine degree from the prestigious Lake Erie College of Osteopathic Medicine in Pennsylvania, before completing his residency in neurosurgery at Virginia Tech Carilion Neurosurgery in 2016—a program accredited by the Accreditation Council for Graduate Medical Education.

Furthering his expertise, he pursued a fellowship in minimally invasive and complex spine surgery at Bassett Healthcare, an institution affiliated with Columbia University College of Physicians and Surgeons in New York. This specialized training, completed in 2017, honed his proficiency in intricate spinal procedures, contributing to his holistic approach to patient care.

From November 2018 to July 2020, Dr. Frimpong assumed the esteemed role of Clinical Faculty in Neurological Surgery at the University of North Dakota Medical School. During this tenure, he imparted his wealth of knowledge to aspiring medical professionals, further solidifying his commitment to education and mentorship in the field of neurosurgery.

Neurosurgery is the medical specialty concerned with the prevention, diagnosis, surgical treatment, and rehabilitation of disorders that affect any portion of the nervous system including the brain, spinal cord, peripheral nerves, and extra-cranial cerebrovascular system. Neurosurgeons are doctors who diagnose and treat problems with the nervous system, often by performing surgery on the brain or spine. They treat strokes, tumors, cervical and lumbar disc disease, infections, and head or spinal cord injuries. Beyond his professional pursuits, Dr. Frimpong is driven by a profound passion for mission work. His visionary dream involves the establishment of a hospital in Ghana, West Africa—an endeavor that reflects his commitment to extending medical care to underserved communities.

In his personal life, he finds joy in a well-rounded lifestyle. A fervent soccer enthusiast, he relishes watching the sport, finding balance through regular exercise, and cherishing moments spent with his family and friends.
