

Thomas V. Divinagracia, MD, MPH, FACS, a Vascular Surgeon with Hartford Hospital

Get to know Vascular Surgeon Dr. Thomas V. Divinagracia, who serves patients in Hartford, Connecticut.

Dr. Divinagracia stands as a distinguished medical professional, currently holding the esteemed title of Chief of Vascular Surgery at Hartford Hospital. With a focus on vascular surgery, endovascular surgery, and general surgery, his comprehensive expertise has positioned him as a key figure in the healthcare landscape.

Before embarking on his professional journey, he completed his undergraduate studies at Hobart College before earning his medical degree from St. George's University School of Medicine. His residency training took place at the renowned Boston University Medical Center, where he honed his skills in general surgery. Following this, he pursued further specialization through an internship at Boston University School of Medicine.

Furthermore, Dr. Divinagracia continued his education at Columbia University for graduate studies, adding depth to his medical knowledge. His commitment to advancing his skills led him to a fellowship at the University of Connecticut School of Medicine, focusing on vascular surgery.

An authority in his field, the doctor is board-certified in vascular surgery and general surgery by the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

Vascular surgery is a surgical subspecialty in which diseases of the vascular system, including the arteries, veins, and lymphatic circulation, are managed by medical therapy, minimally invasive catheter procedures, and surgical reconstruction. A vascular surgeon diagnoses, treats, and manages conditions in the arteries and veins, also called the blood vessels. These specialists treat a range of health problems, from spider and varicose veins to life-threatening aneurysms, and can help patients manage chronic conditions throughout their lives.
