

Transformative Educational Initiative Unveiled for 10th Grade Girls in Punjab - Critical milestone for Careerliy.com

Chandigarh, India Jan 28, 2024 ([Issuewire.com](https://www.issuewire.com)) - In a groundbreaking move to empower 10th-grade girls in state-run Government Girls schools across Punjab, the Government of India has allocated funds in its planned budget for the implementation of a Psychometric Test. Responding to the directive from the Punjab State Government, schools are now actively engaged in conducting these tests with the help of Careerliy, an ED TECH firm dedicated to fostering educational excellence.

Careerliy's Punjab division is committed to implementing this initiative with the utmost sincerity. Their dedicated team of counselors is reaching out to school principals in rural areas, elucidating the benefits of the Psychometric Test program. Furthermore, online Psychometric tests are being conducted in computer labs across smart schools.

Manish Sharma, Co-founder of Careerliy and a proud native of Punjab expressed his excitement about the project. "This will be a transformative intervention in the educational journey of these girls. They will gain awareness about various career options tailored to their interests, setting them on a path to

success."

"This initiative aims to make these young girls aware of the multitude of career options and courses available to them based on their unique interests," said Manish Sharma. "Our goal is to empower them to make informed decisions about their future educational and professional paths."

Nidhi Jain, Co-founder of Careerliy, shared insights into the program, emphasizing its comprehensive approach to assessing students' aptitude, personality, attributes, and interests. Following the online tests, each student will receive an individualized career report, laying the foundation for expert counselors to provide personalized guidance.

As Careerliy takes the lead in implementing this pioneering project, the collective efforts of the Government of India, the Punjab State Government, and Careerliy are set to create a lasting impact on the educational landscape for 10th-grade girls in Government Girls schools across Punjab.
