UniquesCADD Overwhelmed with First Visit at GITEX Global 2023 - Dubai

GITEX Global 2023 is an immense platform to connect and engage with tech enthusiasts and innovators to gain insights about the futuristic technology that is going to reshape the world's economy.

Austin, Texas Jan 5, 2024 ([Issuewire.com](#)**)** - Running since 1981, GITEX Global- Gulf Information Technology Exhibition has been the world's most significant tech event. It offers a dynamic platform for tech investors, collaborators, and creators to come together under a single roof and reshape the upcoming future more broadly. This 43rd edition of the mega tech event has helped and enhanced tech professionals to widen the reach of their network, share creative digital ideas, and bring innovations for the next generation. The technology show took place in Dubai at the Dubai World Trade Center from 16th to 20th October 2023, attracting more than 5k exhibitors from 180+ countries. This year's theme was AI dominance, called "The Year to Imagine AI in Everything," with a spotlight on other emerging technologies, including robotics, cybersecurity, quantum computing, and other diverse ranges.

The mega-tech event attracted and provided attendees with the opportunity to engage with industry leaders and business experts and gain valuable insights on how businesses will be impacted due to emerging technologies. The Gulf Information Technology Exhibition featured 1400+ speakers, 40+ interactive workshops, panels, and a diverse range of conferences and discussions led by experts. Since its inception in 1981, GITEX Global has gained a significant presence as a gathering of enthusiasts and industry professionals to reshape the future with the power of innovative technology.

GITEX Global serves as a bridge to explore new markets in the Gulf region and also fosters global business connections. For years, it has enticed industry leaders, tech innovators, and investors to explore and display futuristic technologies. For many reasons, attending this global tech show is beneficial for companies belonging to a variety of sectors. The following are the critical reasons out of a long list.

- Networking Opportunities and Growth
- Futuristic Market Insights
- Strategic Partnerships with Industry Leaders
- Valuable Knowledge Enrichment
- Better Brand Visibility and Value
- Innovative and Creative Tech Ideas

This has been a call to action to round out the mega show, creating long-standing impressions on attendees. Moreover, GITEX Global 2023 has driven a strong force in the global race of AI, quantum computing, and various other cutting-edge technologies into the business world, bringing a practical solution that can enrich society, economy, and culture. As big as this innovative show was, it was a great pleasure and opportunity for [UniquesCADD](#) to become part of this grand exhibition. Being a prominent [outsourcing BIM company](#), UniquesCADD director, Maulik Patel, along with his esteemed colleagues, gained insights through this exhibition of upcoming technological trends that will significantly impact the AEC industry. Moreover, the AEC industry has witnessed and evolved through time, but GITEX Global 2023 showcased the futuristic growth and doors of opportunities to survive in the competitive market. "GITEX Global is an excellent platform and carries a grandeur for businesses which brings together the best minds of technology. With innovation in technologies, it can change the way how we do business today", further he added.

"As been in the industry for a significant period, it brings me immense pleasure to become a part of and witness this EXPO along with my talented colleagues to gain and understand the new path of technology to serve better in the market. Engaging with experts and leaders of the industry has brought a new perspective of business opportunities and has widened the vision for plans". - Maulik Patel.
