

WINKYES Travel's 'Travel Linked to Trees': Greening Tourism, One Booking at a Time

Elevate Your Journey: WINKYES Travel Offers Free Tree Planting for Every Booking, Unveiling a Green Path to Responsible and Rewarding Travel Experiences.

Palo Alto, California Jan 26, 2024 ([Issuewire.com](https://www.issuewire.com)) - WINKYES Travel Pioneers Sustainable Travel with "Travel Linked to Trees" Program

WINKYES Travel, a leading force in the travel industry, is proud to introduce its groundbreaking initiative, "Travel Linked to Trees." This innovative program is designed to enhance the travel experience for eco-conscious adventurers while contributing to global reforestation efforts.

What is "Travel Linked to Trees"?

WINKYES Travel is taking a bold step towards environmental responsibility by launching "Travel Linked to Trees." For every booking made through WINKYES Travel's top partner agencies listed on www.winkyes-travel.com, the company pledges to plant a tree. This initiative aims to offset the carbon footprint of travel and make a positive impact on the planet.

How Does It Work?

- **Book with Partners:** Travelers can participate by booking their journeys through WINKYES Travel's esteemed partner agencies available on the platform.

- **Automated Tree Planting:** Once a booking is confirmed, WINKYES Travel automatically contributes to global reforestation efforts by planting a tree on behalf of the traveler.
- **Track Your Impact:** Users will have access to a transparent tracking system, allowing them to see the collective impact of their bookings and the number of trees planted globally.

Benefits for Travelers:

- **Environmental Contribution:** Travelers become active contributors to global reforestation, promoting sustainability with every adventure.
- **Exclusive Offers:** In addition to the eco-friendly initiative, users still enjoy exclusive deals and perks from WINKYES Travel's partner agencies.
- **Sustainable Travel Community:** Join a community of like-minded travelers committed to making a positive impact on the environment.

Mr. Marco Tallevi, CEO of WINKYES, expressed her enthusiasm for the initiative, stating, "Travel Linked to Trees aligns with our commitment to sustainable travel. We believe that every journey should leave a positive mark on the world, and this program empowers our users to travel responsibly."

WINKYES Travel invites all travelers to embark on a journey that goes beyond exploration – one that plants the seeds for a greener, more sustainable future. For more information and to book your eco-conscious adventure, visit www.winkyes-travel.com.
