

Margaret Kuznicki, OD, an Optometrist with Henry Ford OptimEyes - Plymouth

Get to know Optometrist Dr. Margaret Kuznicki, who serves patients in Plymouth, Michigan.

New York City, New York Feb 21, 2024 ([IssueWire.com](https://www.issuewire.com)) - Dr. Kuznicki, a board certified optometrist, joined Henry Ford OptimEyes in April 2000. For eight years, she provided her expertise at the Henry Ford OptimEyes facility within the Henry Ford Fairlane Medical Center in Dearborn and presently attends to patients at Henry Ford OptimEyes - Plymouth.

Among the services she offers are comprehensive eye examinations, diabetic eye assessments, family eye care, complimentary eyeglass adjustments, repair services, and additional eye care provisions.

Raised in Hamtramck, Michigan to Polish immigrants, Dr. Kuznicki attended St. Florian High School and completed her undergraduate studies at the University of Michigan-Dearborn. She later obtained her Doctor of Optometry Degree from the Michigan College of Optometry in 1993.

Committed to delivering exceptional eye care, Dr. Kuznicki holds the distinction of being a Diplomate of the American Board of Optometry (ABO). The ABO is a non-profit organization that strives to improve the quality of healthcare through board certification of optometrists in the United States.

Optometry is a healthcare profession that involves examining the eyes and applicable visual systems for defects or abnormalities, as well as diagnosing and managing eye disease. Optometrists are healthcare professionals who provide primary eye care through comprehensive eye examinations to detect and treat various visual abnormalities and eye diseases. Being a regulated profession, an optometrist's scope of practice may differ depending on the location. Thus, disorders or diseases detected outside the treatment scope of optometry (i.e. those requiring certain surgical interventions) are referred out to relevant medical professionals for proper care, more commonly to ophthalmologists who are physicians that specialize in the tertiary medical and surgical care of the eye. Optometrists typically work closely together with other eye care professionals, such as ophthalmologists and opticians, to deliver quality and efficient eye care to the general public.

Dr. Kuznicki acknowledges her success as indebted to her husband, daughters, family, parents, and the unwavering encouragement they provide, along with her love of God.

When not in the office, she and her husband enjoy spending time with their beautiful twin girls.
