

Blue Wing DCPL Flies High at its Annual Award Function, “Udaan”

Recognizing Excellence, Celebrating Growth, and Embracing the Future.

Ahmedabad, Gujarat Mar 16, 2024 ([Issuewire.com](https://www.issuewire.com)) - BlueWing DCPL, a prominent name in the construction industry, celebrated its 7th annual Award Function, “Udaan,” on March 3, 2024, at The Grand Eulogia, with the presence of honored employees, partners, vendors, bankers, and stakeholders.

This annual event simply became a podium to recognize and celebrate the exemplary contribution of BlueWing employees, by rewarding their enthusiasm, creativity, blended with unceasing endeavor for supremacy.

Forty-one employees spanning all three levels—junior, intermediate, and senior—were honored with awards recognizing their exceptional performance. Attendees savored an evening filled with enjoyable activities and a lavish gala dinner, making the event a memorable occasion.

CMD [Jagrut Vasoya](#), in his inspiring speech, reflected on the remarkable journey of BlueWing DCPL, from its humble beginnings to its current stature as a powerhouse in the construction sector. He

highlighted the company's exponential growth, emphasizing its transition from a small firm to a robust organization boasting a team of 150 technical members and over 1500 laborers. Under his visionary leadership, BlueWing DCPL has completed projects spanning millions of square feet, with a promising pipeline of future endeavors.

Vasoya emphasized the core beliefs that have shaped and set a path for [BlueWing DCPL](#), such as excellence, employee empowerment, and the uncompromising rules of serving customers. The company's ethos of letting good talent slip from under its nose was actually the reverse.

It was actually about developing talent from within, which gave every employee the same opportunity to shine and eventually become a leader. The proactive nature of the company is a strategy needed to attain a valuation of Rs. 1000 crore. For the period of FY 2031 onwards, I'd like to aim the business not only toward higher growth goals, but, at the same time, to keep innovation at the core of the company's credo.

The event, which showcased the experience and abilities of BlueWing DCPL, served as a live demonstration of its diverse portfolio that spans a broad array of industrial, institutional, hospitality, and healthcare projects. However, this company wide adoption of [diaphragm wall technology](#) stands out as the most notable feature and is considered a true evidence of their leadership and commitment to staying on top of the trend.

Moreover, the excellence attained by BlueWing DCPL's ISO certifications, which recognize the company's compliance with international standards, shows the corporation's commitment to quality, environmental responsibility, and occupational health and safety.

Moving forward, BlueWing DCPL has a promising future in terms of construction engineering through integrating the latest technology, widening its business scope, and also ensuring ethics is stringently observed on each site. With a dynamic team of young professionals and a culture of integrity, BlueWing DCPL is set to redefine the construction landscape, setting new benchmarks for excellence and innovation.

As the evening came to an end, CMD Jagrut Vasoya extended heartfelt gratitude to all attendees, including employees, families, vendors, contractors, and bankers, for their invaluable contributions to the BlueWing DCPL family. Their unwavering support and dedication are integral to the continued success and growth of BlueWing DCPL.
