📅 April 15, 2024 | 📍 J.W.Marriott, New Delhi | 🌐 brainwaveconsulting.co.in/event-2024

Pune, Maharashtra Mar 12, 2024 ([IssueWire.com](https://www.issuewire.com)) - An event exclusively for PLM Software & Service Providers

CIMdata, Inc., the leading global PLM strategic management consulting and research firm host the

2024 PLM Market & Industry Forum, a global event exploring the transformative power of Digital Twins in optimizing product performance. And for this, [BrainWave](#) (BWC) proudly stands as the exclusive partner for CIMdata in India.

CIMdata 2024 presents the discussion of Digital Twins: Enhancing Product Lifecycle Performance. In this industry-leading Forum designed exclusively for PLM software and service providers, the conversation will revolve around the challenges encountered by industrial users. The objective is to equip members of the PLM Economy with the knowledge and capabilities to effectively address emerging requirements and changes in the industry.

The Forum will cover the following Insights and Features:

- CIMdata's first public release of the 2023 global PLM market analysis results and the current state of the PLM – market and leading trends
- Guidance for the PLM Economy on enhancing support for a crucial concept.
- Application of analytics and Augmented Intelligence/Machine Learning (AI/ML) to the product lifecycle and new intelligent solutions being developed.
- How are PLM software and service providers responding to the digital twin requirements?
- How well are industrial users achieving their digital twin objectives?

Register at: <https://brainwaveconsulting.co.in/event-2024/>

Event Details:

Date: 15 April 2024

Location: JW Marriott, New Delhi

Other Global Locations:

- March 27 | Michigan, USA
- April 11 | Frankfurt, Germany
- April 19 | Beijing, China
- April 23 | Tokyo, Japan

Presentation topics are consistent throughout the Forum series, with slight variations in each geography to account for regional trends.

Attendees of the forum can acquire a comprehensive understanding of the current and emerging PLM market, and its dynamics, along with insights into its anticipated evolution.

Participants will also be enlightened about the opportunities and strategies for navigating the PLM Economy in the upcoming year.
