

Dr. Joy Goldberg-Ballentine, Pediatric Neuropsychologist

Get to know Pediatric Neuropsychologist Dr. Joy Goldberg-Ballentine, who serves patients in Denver, Colorado.

New York City, New York Mar 27, 2024 ([IssueWire.com](https://www.issuewire.com)) - Dr. Goldberg-Ballentine is a pediatric neuropsychologist in Denver, Colorado. She is the Founder of Growing Minds, with a goal to try and make learning easier for children/adolescents and improve their socialization and quality of life.

Among her other roles, Dr. Goldberg-Ballentine is on staff at National Jewish Health as an Associate Professor in Pediatric Neuropsychology and is also an Adjunct Professor at the University of Denver where she teaches graduate-level neuropsychology courses.

In her line of work, Dr. Goldberg-Ballentine aims to identify cognitive, memory, or academic challenges stemming from issues related to central nervous system functioning, such as learning disabilities, ADHD/executive functioning difficulties, concussions, traumatic brain injuries, epilepsy, sleep disorders, oncology/blood disorders, developmental/intellectual delays, and premature birth, to name a few.

After graduating with her Doctor of Philosophy Degree from the University of Denver, Dr. Goldberg-Ballentine went on to perform her residency and fellowship at Barrow Neurological Institute at Phoenix Children's Hospital.

With over 15 years of experience, she specializes in offering comprehensive psychological and neuropsychological assessments for children aged 5 to 18. Her evaluations encompass a wide range of areas including medical, behavioral, memory, learning, developmental, and cognitive difficulties. Additionally, Dr. Goldberg-Ballentine engages in consultation and collaboration with supporting parents, school personnel, and medical professionals to facilitate appropriate rehabilitative services and provide evidence-based recommendations.

In order to continue learning updated strategies to support families, Dr. Goldberg-Ballentine has been a board member and general member of various neuropsychology and educational groups across the United States. Notably, she is an esteemed member of the International Neuropsychological Society, the American Academy of Clinical Neuropsychology, the National Academy of Neuropsychology, and the Colorado Neuropsychological Society (Board member).

Neuropsychology is a branch of psychology concerned with how a person's cognition and behavior are related to the brain and the rest of the nervous system. Professionals in this branch of psychology, known as neuropsychologists, focus on how injuries or illnesses of the brain affect cognitive and behavioral functions.

In her spare time, Dr. Goldberg-Ballentine enjoys reading, watching her favorite sports teams, traveling with her husband, and playing with her adorable English Bulldog.
