

Enjoy a Safe and Early Entry to America With US ETA

California City, California Mar 19, 2024 ([Issuewire.com](https://www.issuewire.com)) - There are two types of visas available for foreigners to enter the United States of America. They are the traditional ones and the online ones. The visa that is available to obtain online is known as Online US Visa, part of the country's Electronic Visa program. As Japan was one of the countries that was a launch member of this American visa program, the citizens get the advantage of using the online US visa. The **US Visa for JAPANESE CITIZENS** allows travelers to come and visit the country for a short period for tourism, business, or transit. Know more details at: <https://www.evisa-us.org/esta-us-visa-eligibility/japanese-citizens/>.

If any international traveler wants to travel to America to do business in the category of B-1/B-2, they can do that without any hassle with the online visa option. Obtaining a **BUSINESS VISA FOR USA** online means the foreigner can stay in the country for 90 days free of cost as per the Visa Waiver Program (VWP). This is given to people who want to invest in the country or want to pursue and deepen business relationships among other conditions. Get more detailed information at: <https://www.evisa-us.org/business-travel-to-united-states/>. The **US Visa for PORTUGUESE CITIZENS** is only valid for up to 90 days. So if the stay is going to be more than 90 days, there is a need to apply for a traditional visa. Know more at: <https://www.evisa-us.org/esta-us-visa-eligibility/portuguese-citizens/>.

Similarly, the **US Visa for CITIZENS OF MEXICO** can be obtained online without visiting the US embassy physically. The only requirements are a valid passport with biometric data, a valid email address, and a valid payment method that can be either a credit card or a debit card.
