

Get to know Hematologist-Oncologist Dr. Peter D. Byeff, who serves patients in Southington, Connecticut.

Peter D. Byeff, MD, a Hematologist-Oncologist with Hartford HealthCare Cancer Institute at The Hospital of Central Connecticut

New York City, New York Mar 25, 2024 ([Issuewire.com](https://www.issuewire.com)) - Dr. Byeff is a triple board certified and fellowship-trained hematologist-oncologist at Hartford HealthCare Cancer Institute at The Hospital of Central Connecticut. He is recognized for his compassionate patient care and commitment to advancing cancer research.

Academically, Dr. Byeff graduated cum laude from the University of Pennsylvania where he received a Bachelor of Arts Degree. He then went on to earn his Medical Degree from The Johns Hopkins University School of Medicine in 1974.

Furthering his training, Dr. Byeff performed his internship in internal medicine at MedStar Health/Georgetown University Hospital from 1974-1975, followed by his fellowship in hematology and medical oncology at Columbia Presbyterian Medical Center.

Board certified in hematology, medical oncology, and internal medicine, Dr. Byeff is recognized as a Diplomate of the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

On a professional level, Dr. Byeff serves as the President of the Johns Hopkins Medicine Alumni Association, showcasing his dedication to fostering connections and collaboration within the medical community.

Hematology is the branch of medicine concerned with the study of the cause, prognosis, treatment, and prevention of diseases related to blood. Oncology is a branch of medicine that deals with the prevention, diagnosis, and treatment of cancer. A hematologist-oncologist is a physician who specializes in the diagnosis, treatment, or prevention of cancer, malignant blood diseases such as leukemia, lymphoma, and multiple myeloma, and blood disorders such as iron-deficiency anemia, clotting abnormalities, hemophilia, and sickle-cell disease.
