

La Mesa Rehab Gets New Recognition From Multiple Veterans' Organizations

La Mesa, California Mar 7, 2024 ([Issuewire.com](https://www.issuewire.com)) - La Mesa Rehab, the San Diego healthcare provider renowned for continuity of care as a total network for all lung disease and physical therapy patients, has expanded its reach within the veteran population. For many years, LMR has been a Department of Veteran Affairs (VA) Preferred Provider, as a member of the VA Community Care Network, ensuring that service men and women get the timely, high-quality health care they need and deserve. Now, LMR has been recognized by/will be involved with FIVE additional national and local organizations.

The first is the Wounded Warrior Project, now in its 20th year of serving 9/11 wounded veterans and service members. This elite organization helps people throughout the country, and after reviewing La Mesa Rehab's credentials, has added it to its list of top professional rehabilitation providers in southern California. <https://www.woundedwarriorproject.org/>

A second national organization that has opened its arms to the help La Mesa Rehab provides is the veteran-focused, non-profit Tunnel to Towers, <https://t2t.org/> It has confirmed the addition of LMR to its veterans' resource portal.

On a more local level, Dancing Veterans San Diego has also added La Mesa Rehab to its Preferred Provider List. This is particularly important for both organizations since San Diego has a huge naval base with many thousands of veterans and active service men and women. <https://dancingveteranssandiego.org/partners/>.

Additionally, La Mesa Rehab has now been officially accepted as a healthcare resource for the Healthy Start Military Family Resource Center. This group, along with the San Diego Military Collaborative, serves active duty, transitioning, and veteran military personnel, and their families.

LMR is also planning to participate in meetings of the local, influential, San Diego Veterans Coalition, the premier veteran convener in San Diego County. <https://sdvetscoalition.org/>.

Through these five organizations, La Mesa Rehab will be increasing its veteran assistance footprint throughout the United States.

La Mesa Rehab employs a team approach, with pulmonologists, respiratory therapists, and physical therapists working together to provide individualized patient care. For example, Dr. Tami Peavy, MBA, MPT, DPT, and Founder, leads this dedicated team, to help veterans whether they have shortness of breath, balance/vertigo issues, chronic pain or are recovering from surgery. Patients are also invited to attend monthly meetings of the American Lung Association's Better Breathers Club, which LMR sponsors and facilitates. <https://LaMesaRehab.com/better-breathers-club/>
