

LTS Launched Its Unified Cyber Security Platform in Startup Mahakumbh 2024

Know Best Cybersecurity solution

Oak Park, Illinois Mar 29, 2024 ([Issuewire.com](https://www.issuewire.com)) - LTS Launched Its Unified Cyber Security Platform in Startup Mahakumbh 2024

Startup Mahakumbh 2024 is a three-day event, started at Bharat Mandapam in New Delhi to portray India's startup ecosystem. It started on 18th March with the aim to connect startup entrepreneurs with a gamut of investors, 350+ speakers, 10+ thematic pavilions, and 48,500+ business visitors and more.

LTS Secure has launched its advanced cyber security product at the startup Mahakumbh 2024 initiated by Nasscom Deeptech. We attended the insightful event where numerous start-ups in India participated.

The technical director of LTS Secure, Mr. Satyen Jain & team, came forward and shared progressive perspectives on the importance of cyber security in this tech-dominated digital world. The Unified [Cyber Security platform](#) is LTS Secure offering to the world to make the digital world safer and more secure.

Data is the most precious asset in this century and managing data has taken a radical shift from pen and paper to cloud. However, that doesn't mitigate its vulnerability. Without a proper cyber security platform, any type of data is open to be used in various malicious activities. LTS Secure offers a security infrastructure that is designed **to protect all layers of cyber infrastructure** including the network, IoT/IT, Cloud, apps, and end-user's data. With one single platform, the problem of data theft and loss can be addressed without interrupting smooth accessibility.

The unified cyber security platform offered by LTS Secure has grabbed attention in the event. With cyber security being one of the key areas of a business process, the solution turned out to be highly

relevant for all digital world of the businesses.

It was a successful participation where the LTS Secure team met fellow start-up entrepreneurs, shared ideas and understood different viewpoints. Leveraging cutting-edge technologies, start-ups in India are growing and together it can have a huge impact on the world.

About the company

LTS Secure is a business that provides enterprise cybersecurity solutions using machine learning and artificial intelligence uses the combined power of SIEM, IDM, CASB, and SOAR technologies to offer businesses an integrated vSOCBox platform that acts as a cyber-suit, detecting, analyzing, and automatically reacting to threats and proactive attacks on the network, cloud, users, data, and apps from a single interface.
