Berlin, Germany Mar 27, 2024 ([Issuewire.com](https://www.issuewire.com)) - Mohsen Ebrahimi Kejani is making a music album in Die Ekstase. (He was born in 1986 in Iran (Tehran), He started playing music at the age of 15 playing guitar and piano). This music album is based on the poems of Hafez Shirazi, translated into German by Friedrich Ruckert. Currently, two music tracks from the album Die Ekstase (Die Ekstase and Die Zypresse) are available on reputable music sites in the world. in fact this album is not complete yet, but

it is expected that three more tracks with the same musical atmosphere with the voice of Mohsen Ebrahimi Kejani will be released in the near future. The atmosphere of the tracks of this music album is based on the atmosphere of the lyrics, which according to Mohsen Ebrahimi Kejani the whole process will be created and recorded in her personal Home studio.

According to this artist, because German is not his mother tongue, making this music is much more difficult than the music he made in the past. But considering that two music tracks were made from the album Die Ekstase, it is **likely** that the rest of the tracks will be made as well.
