

MoniMaster Launches MoniMaster Pro to Achieve Monitor Android and iOS Devices in One Click

MoniMaster, a pioneering company in spyware, roll out a remarkable monitoring tool, MoniMaster Pro, helping concerned parents or suspicious partner to monitor their love one's phone regardless the devices.

London, United Kingdom Mar 28, 2024 ([IssueWire.com](https://www.issuewire.com)) - [MoniMaster Pro](#), with its stealth mode, the monitoring process won't be noticed by the target device. It's a breakthrough technology for MoniMaster Pro not only to spy phone activity remotely, but also can monitor the data on iCloud. Our mission is to protect minors from potential risks online and guide them to develop a good habit in the digital world through innovative technology.

What can MoniMaster Pro do?

In the last version, also known as MoniMaster for Android/MoniMaster for iOS/MoniMaster for iCloud, parents can view the following information on the dashboard:

Activity Log: screen lock or unlock event, get all the notification from different apps in real-time

Phone File: call logs, message, contact, browse history, photo, calendar note

Location Tracking: provide real-time location on the map, get notification if target device is moving out of the geofence

Social App: explore activities on WhatsApp, Facebook, Messenger, Instagram, YouTube, TikTok, Skype, Discord, Snapchat, Tinder, Telegram, Kik, Viber, Line, WeChat, and QQ

Live Recording and Camera Remote Control: turn on the audio or camera remotely to know what happen around the target phone at the moment

What's New?

Alongside with the 30+ existing functions, MoniMaster Pro also introduced a host of new features, which allows parents or spouse to have a better understanding the inner world of the target users.

- Monitor Android/iOS/iCloud in one click
- Monitor more phone files such as Gmail, blocked contacts, specific app, and website
- Check screen time usage and set time limits on apps to protect children
- Allow parents to uninstall inappropriate Apps on the target devices
- Detect keywords and send alerts with detail message sentence
- Live screen
- App Call detail checking

Price

MoniMaster Pro is also known with its affordable price, starts from \$39.99/month. There are various subscription price tailored to meet customer's needs.
