

NCLOUD3 and AI Mawashi partner to leverage the latest business analytics capabilities offered by AWS.

Dubai, United Arab Emirates May 5, 2024 ([Issuewire.com](https://www.issuewire.com)) - NCloud3 Information Technology LLC, a leader in cloud migration and management services, and Trans Emirates Livestock Trading LLC (AI Mawashi), a leader in the meat trading industry, today announced that they signed a strategic technology partnership. The ceremony was held at AI Mawashi offices in Jebel Ali.

Through this partnership, NCloud3 will provide cloud consultation and implementation services to support AI Mawashi's aggressive business growth objectives. AI Mawashi will be able to benefit from

significant IT cost optimization, while also re-architecting its online business platforms for a radically improved customer experience.

Prabhu Karunanidhi, CEO of NLOUD3: “With this latest partnership, NLOUD3 proves that its business-first approach is a unique differentiator in the marketplace. The capabilities offered by AWS in the areas of data, analytics and Generative AI are best-in-class in the industry. By taking advantage of these latest technology trends, Al Mawashi will further cement its leadership position in the industry, while maintaining a renewed level of business agility and innovation”.

Ali Farah, Operation Dept Unit Head, Al Mawashi:” Al Mawashi is at a crossroads in its technology roadmap. We want to align as much as possible our technology investments to support our business vision. With this new IT philosophy, we expect to harness the latest capabilities offered by AWS to delight our customers, and fully leverage the value of data to support Al Mawashi’s expansion. NLOUD3’s focus on business outcomes and its expertise in cloud solutions, make it an invaluable partner to execute our vision”
