

Parker G. Barnett, DC, CCEP, a Chiropractor with Hamilton Mill Chiropractic

Get to know Chiropractor Dr. Parker G. Barnett, who serves patients in Dacula, Georgia.

New York City, New York Mar 26, 2024 ([Issuewire.com](https://www.issuewire.com)) - Recognized as a caring and compassionate chiropractor, Dr. Barnett is the Owner of Hamilton Mill Chiropractic in Dacula, Georgia. As a former athlete, he intimately understands the integral role chiropractic care plays in fostering a balanced and vibrant lifestyle. His extensive training encompasses specialized techniques in extremity adjusting, sports chiropractic, and catering to diverse populations, including expectant mothers and children.

A proud alumnus of the esteemed University of Georgia, he pursued his academic aspirations with unwavering determination, culminating in the attainment of both his Bachelor's and Master's degrees. His professional trajectory initially led him into the realm of biology, where he honed his expertise as a biologist in the greater Atlanta and Northeast Georgia areas.

However, it was a deeply personal experience that ignited the spark that ultimately guided him toward the path of chiropractic care. Dr. Barnett and his wife, Tammie, encountered significant health challenges that propelled them into a profound exploration of alternative healing modalities. It was through chiropractic care that they discovered a transformative lifeline, galvanizing his resolve to pay forward the healing they received.

Driven by an innate desire to empower others on their wellness journeys, Dr. Barnett pursued a Doctor of Chiropractic degree at Life University, graduating Magna Cum Laude. Armed with a comprehensive understanding of the body's innate healing capacities, he embarked on a mission to serve the Hamilton Mill community and its surrounding areas alongside his devoted family.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo, and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.

On a more personal note, Dr. Barnett enjoys spending time with his family and open-water diving. He is also an accomplished dog trainer and has competed with them in dog sports for over 16 years. His dogs have also appeared in motion picture and TV productions.
