

Talkshubh News Launched for Indian Audience

Talkshubh News, a new portal for news in India has been launched for Indian audience who are interested in trending topics.

TAP_{x2}

New Delhi, Delhi Jun 8, 2024 ([IssueWire.com](https://www.issuewire.com)) - Indian media company, Taptwice Media, launched a new version of the [Talkshubh News](#) portal for mobile audiences in India. Serving people who are interested in trending topics and social media discussions, Talkshubh will write very centric articles about topics that are followed the most on Social Media.

To identify the latest trends, the company will use analytics from various social media platforms and then write content that is fresh, useful and interesting. A new format of news that talks about people, it has two new categories called Citizen News and Good News which will be all about the audience. It will cover news that is of benefit to the common man, as well as Good news for a positive message among Indian people.

With its launch, Taptwice is seeking to establish a name in the trending news sector. The old version of Talkshubh was for information only, but the new version has regular video and web stories too.

We are releasing the official statement by the founder of Talkshubh News, Shubham Agrawal -

"We are very pleased to announce our official partners approving of us launching a news portal. We are seeking to bring news to everyone through a mobile-first approach. We are more active on social media than we were and our followers are happily accepting our change."
