

## Tom Criss, Recognized by BestAgents.us as a 2024 Top Agent

Whether navigating financing options, unraveling the intricacies of relocation, or simply finding the perfect home to complement clients' lifestyles, Tom is here to help.

**New York City, New York Mar 22, 2024 ([IssueWire.com](https://www.IssueWire.com))** - Tom is a dedicated realtor, Certified DRS Agent, and Physician Loan Consultant at RE/MAX Prestige in Wellington, Florida.

With a strong commitment for assisting the medical community, he merges his passion for real estate with a profound understanding of the distinct benefits tailored for physicians, residents, fellowships,

dentists, and HR departments alike throughout the home buying process.

Based in Palm Beach County, Tom focuses on relocation services, assisting physicians with their first-time home purchases, and facilitating luxury home and condominium sales across South Florida. His expertise extends along the East Coast from St. Lucie County to The Florida Keys. Additionally, he handles commercial transactions, aiding medical professionals in establishing new practices or expanding their medical groups, as well as supporting business owners in diverse industries.

At first, Tom and his wife, who is now a physician, were unaware that they could purchase a home immediately after her residency without needing a hefty down payment, utilizing specialized resources for medical professionals. They made a startling realization - they had missed out on a staggering \$200K in home equity by spending it on rent. This startling revelation inspired Tom to enter the real estate industry in 2019, determined to steer others clear of the same oversight and ensure that no other medical professionals would overlook opportunities the way he and his wife had.

Armed with a Degree in Marketing and Communications from The Ohio State University and a background in Telecom, Tom serves as an invaluable resource to buyers and sellers seeking a realtor with strong negotiation skills, access to cutting-edge technology, and a solid database of buyers, investors, and medical professionals.

Recognizing the unique financial constraints and time pressures faced by young medical professionals, his objective is to educate and empower them to make well-informed decisions about homeownership. Through streamlining the home buying process for aspiring doctors and offering insight into the favorable opportunities available to them, he aims to assist them in gaining a head start following residency or fellowship.

Nevertheless, Tom's efforts extend beyond mere property transactions; they carry a heartfelt purpose. A portion of every sale with him contributes to the battle against breast cancer, serving as a tribute to a beloved friend, a physician, who tragically lost her life to breast cancer at the tender age of 42.

Above all, Tom attributes his success to his passion for his profession, his unwavering motivation and drive, his steadfast commitment to assisting clients, and to his loving wife.

When he is not working, he enjoys coaching his son's baseball team or spending time with his family in one of South Florida's many great hot spots.
