Bronx, New York Mar 29, 2024 ([Issuewire.com](https://www.issuewire.com)) - Gem Squad Productions proudly announces the upcoming release of "Against All Odds," the highly anticipated debut EP from singer-songwriter Yalissa "Jewels" Lopez. Scheduled for release on April 17, 2024, with pre-orders available starting April 10, 2024, this EP marks Jewels' triumphant return to the music scene since parting ways with her previous label, MVB Records.

"Against All Odds" represents a remarkable journey of resilience, artistry, and personal growth. Following her departure from MVB Records in 2020, Jewels dedicated herself to honing her craft while embracing the joys of motherhood. Now, after four years of introspection and artistic refinement, she unveils her most authentic work to date.

Featuring a captivating blend of Pop and R&B tracks, "Against All Odds" is a musical narrative of love, loss, and self-discovery. Recorded entirely at Music Box Studios in Brooklyn, NY, this EP offers listeners a glimpse into Jewels' world, where every melody and lyric resonates with raw emotion and vulnerability.

Jewels' creative process was deeply influenced by her role as a mother, with her son playing an integral part in the selection of songs for the EP. His intuitive connection to the music guided Jewels in crafting a lineup that reflects her artistic vision and personal experiences.

Already making waves with two pre-release singles, "Do Ya Right" and "Play with Me," Jewels has set the stage for the EP's success. Both singles showcase her dynamic vocals and evocative storytelling, hinting at the depth and diversity of "Against All Odds."

In addition to the EP release, Jewels will unveil a music video for one of the tracks, offering fans a visual interpretation of her musical narrative.

With "Against All Odds," Yalissa "Jewels" Lopez invites audiences to join her on a transformative journey of love, resilience, and self-discovery. This EP marks a new chapter in her musical career, reaffirming her status as a rising star in the industry.
