

DeHaat.in: New Direction Of Agricultural Revolution

Gurgaon, Haryana May 1, 2024 ([Issuewire.com](https://www.issuewire.com)) - Our new initiative, DeHaat.in, marks the beginning of a new era in India's agriculture sector. At “**DeHaat.in**” started by the founders of Agrivolution, we create a platform that assists farmers in purchasing their specific seeds, tools, equipment, and principles.

Our, this agri-tech platform offers a variety of prototypes and makes them available at budget-friendly ratings, giving farmers the flexibility to select the products per their economic condition.

Through DeHaat.in, we provide a safe and trustworthy online marketplace for agriculturalists where they can purchase the materials required for their farming without any worries. We aim to provide all solutions to farmers for farming in one place saving both their time and money.

The “**Agrivolution**” is very popular these days for the B2B agriculture market. It's a platform where agriculture meets with technology for farmers.

A New Tech-Enabled Era for Farmers

Through Dehaat.in, we provide a holistic solution to the farmers for their farming produce. Here farmers can not only buy high-quality agro-produce but also get agricultural advice that improves their farming style and quality.

Marge of Agriculture and Technology

Our machinery-enabled technologies are revolutionizing agricultural supply chains and production efficiencies. DeHaat.com operates across 12 agriculture-intensive states in India, with a network of 11,000+ DeHaat centers and 503 F product lines, serving 1.8 million+ farmers.

With Dehaat.in, we are providing a new direction and momentum in the agriculture sector. Our goal is simple – to have a meaningful impact on the lives of farmers and empower their decision-making.
