

## Happypillar, AI mental health startup, wins 2024 Parents' Picks Award for best preschool product

**Los Angeles, California Apr 22, 2024 ([IssueWire.com](https://www.issuewire.com))** - Happypillar, a leading digital therapeutic app, announced today that it has won the 2024 Parents' Picks Award for Best Preschool Product of 2024. Parents' Picks Awards is the leading organization that showcases parent-tested and kid-approved products. With over 45 years of combined experience in the industry, "we are the go-to source for parents and professionals seeking the best products for their children and families."

Happypillar brings evidence-based mental health support to families everywhere. "We built a research-backed AI solution for early childhood mental health. Happypillar's app breaks everything down into daily 5-minute therapeutic sessions that have a major impact on parents, children, and their relationships, and with our human focused design, parents are encouraged to make this part of their daily routine" says Mady Mantha, CTO and co-founder.

Fueled by COVID, the need for effective and accessible mental health solutions for families has exploded. Happypillar is stepping up to meet that need. In an impact study, 98% of users reported improvement in 3 weeks or less. "This is an amazing app. The app is teaching parents and monitors what they are doing (awesome technology). I like that the program is evidence-based, parents get immediate feedback and there is clear research behind the program." said a recent award evaluator.

"It's an honor to be recognized," says Sam Gardner, CEO and co-founder. "Being a parent today is demanding. Families need access to affordable and actionable support. This award is a testament to the skill, ingenuity, and vision of our team."

Happypillar has closed over \$1.4 million in funding to date, drawing support from a distinguished group of investors including AI Operators Fund, Overlooked Ventures, Change Paradox Ventures, Copper Wire Ventures, Progression Fund, Hustle Fund, Reach Capital, and other notable angels. With strong interest from individual impact investors, a follow on investment round is expected to close in the coming months. Happypillar was invited to be a keystone presenter at the 2024 KidTech Conference in San Diego last week, which features the most innovative parent tech companies.
