

Innovation in Boat Trailer Winch Technology - Introducing Bigvee

Bigvee eliminates the need for a boat trailer winch and lessens the reliance on boat trailer guides

Fort Lauderdale, Florida Apr 7, 2024 ([Issuewire.com](https://www.issuewire.com)) - Greg Staples, an avid boater and inventor, has unveiled a groundbreaking solution to streamline boat trailer operations with the launch of Bigvee.

This revolutionary bow stop eliminates the need for a boat trailer winch which makes drive-on boat retrieval easy as well as transforming the way boaters retrieve their vessels and reducing reliance on traditional boat trailer guides.

Designed with precision and ingenuity, Bigvee represents a significant advancement in the realm of marine technology. Its innovative design ensures seamless boat retrieval without the hassle of manually operating a boat trailer winch. Boaters can now experience unparalleled convenience and efficiency during the loading and unloading process."

With Bigvee, we aimed to revolutionize the boating experience by simplifying trailer operations," said Greg Staples, the inventor behind this game-changing product. "Gone are the days of struggling with cumbersome winches and relying solely on trailer guides. Bigvee offers a more intuitive and effortless solution for boat owners." Bigvee's design is meticulously engineered to enhance functionality and durability. Crafted from high-quality materials, it promises longevity and reliability, even in the harshest marine environments. Its user-friendly interface ensures easy installation, making it accessible to boaters of all experience levels.

Key features of Bigvee include:

- Elimination of the need for a boat trailer winch.
- Reduced reliance on traditional boat trailer guides.
- Simplified loading and unloading process.
- Enhanced durability and longevity.
- Easy installation for boaters of all skill levels.

With Bigvee, Greg Staples has set a new standard for convenience and efficiency in boat trailer technology. Boaters can now enjoy a hassle-free experience when launching and retrieving their vessels, allowing them to focus on what truly matters – enjoying their time on the water.

Bigvee is available in North America at a retail price of US\$99 via the Bigvee.com website. Delivery by local post and courier.
