Chennai, Tamil Nadu Apr 18, 2024 ([Issuewire.com](https://www.issuewire.com)) - Established in the year 1991, JAYALAKSHMI GROUPS, are engaged in Manufacturing, Distribution, And Exporting of Taper Button Bits, Top hammer drilling tools, DTH drilling tools, Tunnelling tools, Coal picking tools, Integrated Rock Drilling Rods and Cemented Carbide Bits. Manufactured using high end automated robots, best grade virgin raw material and state of art quality checking. These products are obtainable in dissimilar designs, styles and sizes to suit the customer is a specific need. Widely used in different commercial and residential spaces, our products are acclaimed for their dimensional correctness, corrosion resistance and low preservation.

We have also ventured to manufacture Self-Drilling Anchor systems and accessories, stone processing tools and construction equipments.

We have urbanized a state-of-the-art infrastructure in Indian Subcontinent, in order to expand our range. Our infrastructure is segregate over a wide area and comprises various units. Throughout the manufacturing process, our excellence controllers thoroughly test the complete gamut over several severe parameters to avoid any option of the error in the final product. After that, the whole gamut is cautiously stored at our warehousing unit for packaging prior to their transmit.

Vision: *Being a one stop solution provider for all drilling needs.*

Owing to the dynamic and magnificent management of our Managing Directors **Srinivasan and Yoga Vigneshwarran** we have been successful in making marked progress in the market ever since our inception.

Their industrial exposure and experience with indian climate of business is vast and tremendous and we are not leaving any opportunity from benefiting from the same. They have been involved in every step and monitor every activity of business process helping in the smooth operations of the entire business.
