Beverly Hills, California Jun 27, 2024 ([IssueWire.com](https://www.issuewire.com)) - Nautilus Mineral Waters of America, Inc., a pioneer in the private label bottled water industry, is proud to announce the launch of “Dr. Prune,” the world’s first caffeinated prune juice. This innovative product is set to revolutionize the beverage market by combining the health benefits of prune juice with the energizing effect of caffeine.

Dr. Prune is a unique blend designed for health-conscious consumers who need an energy boost without sacrificing nutrition. Packed with essential vitamins and minerals, prune juice is known for its digestive health benefits, while the added caffeine provides the perfect pick-me-up for busy individuals on the go.

About Nautilus Mineral Waters of America, Inc.

Nautilus Mineral Waters of America, Inc. specializes in the private label bottled water industry, offering a variety of licensed and in-house developed brands. These products are strategically bottled at locations across the United States, Canada, and Europe, ensuring high quality and accessibility for their clients. With a commitment to innovation and excellence, Nautilus continues to lead the way in the beverage industry.

About Richard H. Davis

Richard H. Davis, the driving force behind Dr. Prune, is a distinguished inventor, United States Merchant Marine, and combat veteran. His extensive maritime experience includes serving as a yacht-delivery skipper during the United States Invasion of Panama, an event vividly chronicled in his unpublished manuscript "Sailor of Fortune." This work provides a gripping account of his adventures at sea and on land aboard the Motor Vessel Kamillian. Additionally, Mr. Davis is a respected photojournalist for Soft Drinks International Magazine in Britain. His insights and expertise have been featured on various national and regional media broadcasts, including CBS News, NBC News, Fox News, and ABC News, as well as in The New York Times, among other esteemed publications.
