

No More Waiting Weeks: Perfect Smile Tulsa Offers CEREC® One-Visit Crowns

Tulsa, Oklahoma Apr 6, 2024 ([Issuewire.com](https://www.issuewire.com)) - Perfect Smile Tulsa, a leading dental practice dedicated to providing exceptional and convenient care, is proud to announce their utilization of CEREC® technology for creating beautiful, natural-looking crowns in just one visit. This innovative technology eliminates the need for multiple appointments and waiting weeks for a permanent crown, saving patients valuable time and reducing overall treatment time.

CEREC stands for Chairside Economical Restoration of Ceramic. It's an advanced computer-aided design (CAD) and computer-aided manufacturing (CAM) system that allows Perfect Smile Tulsa's dentists to design, mill, and place a custom-made crown right in the office during a single appointment.

"Traditionally, the crown placement process involves two appointments," explains Dr. Mark Davis, a dentist at Perfect Smile Tulsa. "During the first visit, the [Tulsa dentist](#) prepares the tooth and makes an impression. This impression is then sent to an off-site lab for crown fabrication, which can take weeks. With CEREC®, we can eliminate this wait time. We capture a digital image of the tooth using a special camera, design the crown using 3D software, and then mill the crown from a ceramic block right here in our office. The entire process can be completed in about an hour."

Benefits of CEREC® One-Visit Crowns:

- Convenience: No more waiting weeks for a permanent crown.

- **Reduced Appointments:** Saves patients valuable time by eliminating the need for a second visit.
- **Improved Patient Experience:** Minimizes overall treatment time and reduces potential discomfort associated with temporary crowns.
- **Precision and Durability:** CEREC® crowns are created using high-quality materials and offer exceptional strength and aesthetics.

Perfect Smile Tulsa is committed to providing patients with the latest dental technology and techniques to ensure a comfortable, efficient, and positive dental experience. [CEREC® one-visit crowns](#) are a perfect solution for patients who need a crown but are short on time or dislike the inconvenience of multiple appointments.
