

Quttainah Medical Museum: Revealing First-Ever Medical Marvels and Milestones from the Middle East

A Journey Through Time: Quttainah Museum Exhibits Pioneering Medical Achievements from the Middle East

al-Ahmadi, Kuwait Apr 18, 2024 ([Issuewire.com](https://www.issuewire.com)) - Quttainah Medical Center is excited to announce the grand opening of the Quttainah Medical Museum. The museum offers visitors a unique opportunity to explore the rich history and groundbreaking advancements of medical science in the Middle East. Immerse in the fascinating journey of medical discovery, innovation, and healing.

Quttainah Medical Museum (QMM)

QMM is a personal collection of Dr. Adel Quttainah, which he has gathered and documented from his personal travels, conferences, lecture excursions, and visits to extreme locations for volunteer medical missions.

The 1st medical museum in the Middle East comprises items ranging from the Islamic medical era to the late 19th Century, each with a significant history that is detailed in the displays.

Dr. Quttainah has also written an informative book that contains many interesting facts and stories about the collection. Most of the pieces in the collection are of interest to the medical profession as well as his clients and patients.

Key Museum Facts

- The [1st medical museum in the Middle East](#)
- It has 400 authentic pieces
- An original handmade stethoscope from the early 19th Century (1816)
- Artifacts from World War II
- The oldest antique dates to the 11th Century

The Quttainah Medical Museum is not just a collection of artifacts; it is a homage to the committed individuals who have influenced the field of medicine throughout history," stated Dr. Adel Quttainah, the founder of the Quttainah Medical Museum." The museum is designed to expand the knowledge among individuals and ignite a passion and interest in the history of medicine.

About Quttainah Medical Center (QMC)

Quttainah Medical Center was established by Dr. Adel Quttainah in 2016. Dr. Quttainah is an internationally trained and experienced Cosmetic and Reconstructive microsurgeon.
