

Renowned Anesthesiologist and Educator, Ryan Farmer, DABA, MD, MSME, with the University of Missouri Health Care

Bringing Extensive Training and Expertise to His Patients

New York City, New York Apr 17, 2024 ([Issuewire.com](https://www.issuewire.com)) - A full-time anesthesiologist and Assistant Professor at the University of Missouri, Dr. Farmer brings a unique blend of clinical expertise and educational leadership to the University of Missouri Health Care. His commitment to patient-centered care and innovative teaching methods has earned him respect and admiration from colleagues and students alike.

Educated in the United States, he received a Bachelor of Science in Civil Engineering from Kansas State University in 2005, demonstrating his commitment to excellence and diverse skill set. Following this, he pursued a Master of Science in Mechanical Engineering from the University of Kansas in 2011, showcasing his dedication to continuous learning and growth in his chosen field.

In 2012, Dr. Farmer achieved the prestigious title of Medical Doctor from the University of Kansas School of Medicine, marking the beginning of his illustrious career in the medical field. His dedication to education and training led him to complete his Preliminary Medicine Training at the University of Kansas School of Medicine - Wichita in 2015, further enhancing his expertise in patient care and medical practices.

Continuing his pursuit of excellence, he completed his residency at the University of Missouri in 2018, solidifying his specialization in anesthesiology and critical care. His passion for teaching and mentorship was recognized when he assumed the role of Assistant Professor at the University of Missouri Health Care in February 2023.

Subsequent to his education, the doctor attained board certification in anesthesiology and pediatric anesthesiology through the American Board of Anesthesiology (ABA). As the certifying body for anesthesiologists since 1938, the ABA is committed to partnering with physicians to advance lifelong learning and exceptional patient care. Its mission is to advance the highest standards of the practice of anesthesiology.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, they measure the patient's respiration.
