

Team MoniMaster Proudly Introduces MoniMaster Pro: A Single Parental Control Software for All Devices

MoniMaster is a leading parental control application that offers a wide range of digital monitoring services. Today MoniMaster's team achieved another milestone by introducing MoniMaster Pro: Monitor kid's online activities with a single software.

London, United Kingdom Apr 9, 2024 ([Issuewire.com](https://www.issuewire.com)) - No matter what type of device they use. Unlike its previous version where you have to buy multiple subscriptions for different types of monitoring

activities. Such as Android Monitoring, iPhone Monitoring, and iCloud Monitoring. [MoniMaster Pro](#) is an all-in-one parental control software for Android, iOS, and iCloud. All you need is to buy one plan and you can use it on different mobile phones.

Whether you are a concerned parent or partner and want to ensure the digital safety of your kids and loved ones. MoniMaster Pro ensures you keep check on your kid's and partner's activities at a low cost. Besides this, It also enables you to keep an eye on your employees, No matter what type of digital devices they use.

Key features of MoniMaster Pro:

MoniMaster Pro plays a vital role in the digital safety of your partner, kids, and employees in the workplace. It is the integration of Android, iOS, and iCloud into one product, so you can use it for any of the following services. Let's uncover some important features of it.

1. Comprehensive App Tracking: MoniMaster Pro's comprehensive app tracking feature lets you collect data on all applications installed in target iOS and Android Devices. This enables you to keep a close look at the different social activities of your children. Such as Facebook, Instagram, TikTok, YouTube, etc. Besides this, it also monitors different types of messaging apps in real-time. For example WhatsApp, Messenger, Viber, Telegram, etc.

2. Location Tracking: Getting the exact location info of your kid, partner or employee is no longer a problem. MoniMaster Pro enhanced location tracking enables you to get accurate and real-time location details. It gives you complete peace of mind about the dedicated safe zones. Besides real-time location tracking you can also get a complete location history of all types of devices with a single software and a single membership plan.

3. Access to Android and iPhone Stored Files: What types of files are saved in your kid's iPhone or Android device? MoniMaster Pro proudly announces to monitor more than 20 file types. Some common types file of that you can view using MoniMaster Pro are. Media Files i.e. Audio, Video, Images, Documents, Calendar, Reminders, etc.

4. Calls and Messages Logs: Get detailed insights into calls and Messages of any target device with MoniMaster Pro in a single click. It records and stores all types of keystrokes on any type of device keyboard. This enables you to get access to all types of messages and Calls. It gives you access to contacts stored on iOS and Android devices and blocks incoming and outgoing communication on your family member's device from specific contacts, either at all times or during certain periods. This enables parents to know about frequent people that their children contact and protect kids from associating with strange people.

5. App Screen Time Limit: Establish screen time limits for apps on the child's Android device. By configuring their Android device, you can activate a feature that automatically locks the specific App after a designated period of usage, or when you believe it's necessary for them to take a break.

6. Allow or Block Website: MoniMaster Pro empowers parents with the authority to decide which websites their kids can access and to block any inappropriate sites.

7. iCloud Monitoring: MoniMaster Pro offers you a complete iCloud Monitoring Solution. It gives you access to all types of activities and data stored in iCloud. For example WhatsApp backup, Contacts, Images, notes, and calendar data. Another worth mentioning feature is that you get access to deleted

iCloud data of any iOS device without knowing.
