

Top Venous & Lymphatic Medicine Doctor, Todd Kobrinski, DO, MS, DAVBLM

Get to know Vascular Surgeon Dr. Todd J. Kobrinski, who serves patients throughout the State of New Jersey.

New York City, New York Apr 18, 2024 ([IssueWire.com](https://www.issuewire.com)) - With incredible credentials, Dr. Kobrinski is widely considered one of the best vein experts in New Jersey. He is proud to provide the highest standards of vein care to his patients at the New Jersey Vein Centers in Paramus, Clifton, and Woodland Park.

Known for his incredible treatment results and skills, Dr. Kobrinski is highly sought after for his expertise and excellent outcomes in spider veins and varicose vein removal. He performs the latest minimally-invasive vein treatments to treat chronic venous insufficiency; a condition that leads to spider veins and varicose veins, along with symptoms such as leg cramping, pain, and fatigue.

Likewise, he brings a breadth of knowledge and training in all aspects of cardiovascular disease, including the latest minimally-invasive, ultrasound-guided treatment techniques for chronic venous disease.

Incredibly compassionate and friendly, Dr. Kobrinski focuses on individualized vein treatments, crafting each treatment plan according to each patient's unique goals, needs, and concerns. He also discusses all their vein treatment options, highlighting the pros, cons, costs, and insurance coverage options.

After obtaining his Bachelor of Science and Master of Science Degrees from The George Washington University, Dr. Kobrinski received his Doctor of Osteopathic Medicine Degrees from Nova Southeastern University Dr. Kiran C. Patel College of Osteopathic Medicine in Florida. He then pursued eight years of extensive post-graduate training through the Icahn School of Medicine at Mount Sinai St. Luke's Roosevelt Hospital Center in New York City.

During his multi-specialty training, he completed a three-year residency in internal medicine as well as subspecialty fellowships in both cardiovascular disease and clinical cardiac electrophysiology spanning an additional five years.

Having successfully passed professional milestones, Dr. Kobrinski is board certified in general surgery and vascular surgery by the American Osteopathic Board of Surgery (AOBS). The AOBS is an organization that provides board certification to qualified Doctors of Osteopathic Medicine who specialize in the use of surgery to aid in the diagnosis and treatment of disease.

His research interests have included non-invasive cardiac imaging, early detection of coronary artery disease, and radiation-lowering techniques during catheter ablation procedures for cardiac arrhythmia management. His publications have appeared in the American Journal of Cardiology, the American College of Cardiology Scientific Sessions, as well as a book chapter on cardiac arrhythmia identification and management in critical care settings.

Yielding superior results, Dr. Kobrinski is an active member of the American College of Physicians, the American Medical Association, the American College of Cardiology, the American Heart Association, and the Heart Rhythm Society.

Vascular surgery is a surgical subspecialty in which diseases of the vascular system, including the arteries, veins, and lymphatic circulation, are managed by medical therapy, minimally-invasive catheter procedures, and surgical reconstruction. A vascular surgeon diagnoses, treats, and manages conditions in the arteries and veins, also called the blood vessels. These specialists treat a range of health problems, from spider and varicose veins to life-threatening aneurysms, and can help patients manage chronic conditions throughout their lives.
