Calgary, Alberta May 15, 2024 ([IssueWire.com](https://www.IssueWire.com)) - Accelerate Financial Technologies Inc. (“Accelerate”), Canada’s leading provider of alternative investment solutions, is pleased to announce that Accelerate Diversified Credit Income Fund (“INCM”) has listed today on the Toronto Stock

Exchange (“TSX”) under the ticker symbol “INCM”. The units of INCM (the “Units”) are also available for purchase in U.S. dollars under the ticker symbol “INCM.U”.

INCM seeks to deliver exposure to alternative sources of income compared to traditional fixed income funds by focusing on, but not limited to, the private credit market.

“We are excited to offer Canadian investors the attractive yields generated by private credit while also having the convenience, transparency, and liquidity of an ETF,” said Julian Klymochko, CEO and Chief Investment Officer of Accelerate.

“The advantages of private credit include its potential to generate greater portfolio returns, provide a higher level of income, and offer diversification benefits. The Accelerate Diversified Credit Income Fund’s targeted 10% yield, supported by its exposure to a diversified portfolio of senior secured floating rate loans, may help investors achieve their monthly income goals.”

About INCM

Brokerage fees and expenses may all be associated with an investment in exchange traded funds (“ETFs”). Please read the prospectus or ETF Facts document before investing. ETFs are not guaranteed, their values change frequently, and past performance may not be repeated. ETF units are bought and sold at market price on a stock exchange, and brokerage commissions will reduce returns.
