MOLLY'S MILESTONE

a novel by Marlys Beider

Phoenix, Arizona Jun 1, 2024 ([IssueWire.com](https://www.issuewire.com)) - Author Marlys Beider announces the release of her fourth book, "Molly's Milestone." The novel offers a glance into the life of 30-year-old Molly Miraldo and her complicated past. When Molly receives a strange phone call, it causes her to question everything she believes in.

"I'm excited to share my latest novel," says Marlys Beider. "The story of Molly is one of drama and psychological mystery that takes the reader along on her introspective journey to the truth as she uncovers her family's sordid past."

"Molly's Milestone" is told through the lens of multiple characters as the story evolves, spanning over years and countries. As Molly embarks on her journey of truth, the illusions her family carefully constructed around her shatter when fragments of a forgotten childhood begin to resurface. Molly's quest to reclaim her stolen memories not only unearth the sinister motives behind her family's lies, but as each layer peels away, the truth is more devastating than the memories she longs to recover.

Beider began creating stories while growing up in Germany. At age 21 she moved to the U.S. and studied journalism in college in Chicago. In 2001 she published her first novel "Fateful Parallels." Since that time, she's published two other novels, "Continuum" and "I Am Here." Beider has also written a number of unpublished works, including four children's books.
