

Celebrate Mother's Day with Special Flight Deals

Orlando, Florida May 3, 2024 ([Issuewire.com](https://www.issuewire.com)) - Cheapfaremart, the IATAN-accredited Orlando-based Online Travel Agency (OTA) has announced special Mother's Day flight deals that entitle travelers to get discounted flight tickets to their preferred domestic or international destinations on any route.

Customers can unlock the benefits of Mother's Day Special Flight Deals by collecting the flight coupon published on its dedicated [Mother's Day Flight Deals](#) page and then using the coupon on the checkout page while making a reservation.

Customers can book either from the published round-trip flights on the dedicated page, or use the flight search tool to discover flight options matching their travel plan. The flight reservation is protected by Cheapfaremart's 24-hour free cancellation policy. To aid in travel planning, Cheapfaremart provides destination-specific information, where travelers can get to know about the arrival airport, operating airlines, best time to visit, visa and passport requirements, and other travel information.

The Cheapfaremart Mother's Day Flight Sale 2024 started on February 13, 2024 (i.e., 90 days ahead the Mother's Day, May 12, 2024) and ends with the event date itself. The agency is adjusting the discounted amount against their Online Air Transaction Service Fees which can be up to \$150 per ticket.

The special flight deal from the OTA is independent of any airline's policy and, hence, is applicable to air ticket(s) booked with any carrier. The flight discount cannot be combined with any other benefits or flight discount coupons. However, if the count of passengers is 10 or more, the representative of the group can submit a group flight booking request. This enables a family to travel together with additional savings per ticket.

"The special flight deal is a token of respect to all women and womanhood that nourishes nature and is the source of all happiness," says Aftaf Ahmad, Operation Manager at Cheapfaremart. "Also, it has been our practice to return a share of our earnings to the community we do business in and make them feel special."

www.cheapfaremart.com serves customers with pre-booking and post-booking services, and adheres to the industry's best practices and regulatory norms of the US Department of Transportation.

About Cheapfaremart

Cheapfaremart.com is a flight booking website controlled by Cheapfaremart LLC, an IATAN (International Airlines Travel Agent Network)-accredited online travel agency (OTA) based in Orlando, USA. The agency is also certified by ARC (Airline Reporting Corporation). Cheapfaremart was established in 2015 to make travel planning smarter and more affordable with an effective comparison of flight options available with major and low-cost carriers.
