New York City, New York May 21, 2024 ([IssueWire.com](https://www.IssueWire.com)) - Claudia De Rosa Jewelry Launches Magnetic Jewelry: Innovative Modular Design Jewelry Made from Upcycled Materials *Introducing magnetic jewelry: sustainable and versatile unique pieces that change and transform with you!*

Claudia De Rosa Jewelry, Italian luxury brand, proudly announces in the UK the launch of Magnetic Jewelry, a line of modular design jewelry crafted from upcycled materials. These unique pieces offer the ability to adapt seamlessly to the wearer's style, occasion, and needs through a patented secure locking magnetic setting.

[Magnetic Jewelry](#) is designed for those who value versatility and innovation without compromising on sustainability. Each piece in the collection can be transformed by simply changing the magnetic setting, allowing for an instant update to your look. This makes Magnetic Jewelry (registered in Italy as Gioielli Calamita®) perfect for any occasion, from casual to formal.

“My passion for design and my personal experiences have led me to create something truly special,” says Claudia De Rosa, founder and designer of the brand. “I want to offer people the freedom to express themselves through my jewelry, while also promoting values of sustainability and innovation.”

Published already twice on British Vogue, Claudia De Rosa Jewelry is a luxury Made in Italy brand, born from the determination and creativity of Claudia De Rosa. As a designer, cycling enthusiast, mother of three, and advocate for gender freedom, Claudia founded her brand after overcoming a difficult period of domestic violence and economic dependency caused by the COVID-19 pandemic. Her mission is to create a source of economic independence for herself and her children, using her art as a means of empowerment and self-reliance.

“Magnetic Jewelry represents not only a new way to experience jewelry but also a testament to my personal rebirth,” Claudia continues. “I hope my creations can inspire others to find their strength and voice.”
