Bronx, New York May 15, 2024 ([Issuewire.com](https://www.issuewire.com)) - There is something about authors that makes them truly unique with their literary representations and when it comes to rising authors, **George Drummer** surely deserves a special mention. This talented author has just released a book named '[The Journey](#)' which is creating a huge buzz among readers of all ages. The book is creatively crafted with a story of morphosis that is bizarre yet wholesome enough to make the readers emotional. The story shares the journey and perseverance of a unique puppy, whose name is George. He gets lost and separated from his owner and goes through a series of events in life that expose him to different experiences he finally comes, but he is not the same George anymore.

George was born in a big city and the puppy was adopted by an owner named Brian and his family. Brian has a daughter named Jennifer and they were quite happy together until they went on a

trip. George gets lost in that family trip and comes across experiences that he was never exposed to before. He had only one goal to come back to his family and on his journey, the puppy gains mysterious human abilities with each experience he has. He also met his old friend on the way who happens to be his old owner. They work together to find his new owner Brian from whom he gets lost. However, it was not easy for Brian to accept his long-lost puppy as a new human member of his family. Did they finally reunite? Well, that is the task for readers to find out by purchasing the book.

Evidently, the title '**The Journey**' is well justified by the author, and referring to the protagonist puppy as George, with his name, makes readers assume that perhaps it is his own story of morphosis that is offered in a metaphoric way. Ultimately, it is a story of love, acceptance, and change that is inevitable. Hailing from New York City, **George Drummer** is all set to publish more amazing books in the coming days and he has already started.
