Book an appointment with your Suffern family dentist today!

Dental Wellness of Suffern, a leading dental practice in the community, hosted a significant gathering of healthcare professionals on April24, to discuss the latest advancements and techniques in treating Ankyloglossia, commonly known as tongue tie. The symposium, led by the renowned Dr. Sherri Alpert, aimed to enhance local expertise and patient outcomes regarding this often-overlooked condition.

Tongue tie occurs when the strip of skin connecting the tongue to the floor of the mouth is shorter than usual, which can lead to difficulties in breastfeeding, speech, eating, and oral hygiene. The condition can affect individuals of all ages and often requires a precise and tailored approach for effective treatment.

Dr. Sherri Alpert, a respected figure in dental medicine and the head of Dental Wellness of Suffern, emphasized the importance of early diagnosis and intervention. "With advancements in medical

technology and surgical techniques, tongue tie treatment has become more accessible and effective. Our goal today is to ensure that every healthcare professional leaves with a deeper understanding of these advancements and how they can be applied to help patients in our community," stated Dr. Alpert.

During the event, specialists in pediatric dentistry, orthodontics, and oral surgery shared insights into the latest research findings and innovative treatment methods. Highlights included discussions on minimally invasive surgical techniques, the importance of interdisciplinary care, and postoperative rehabilitation strategies to ensure successful outcomes.

As the leading provider of [tongue tie treatment near you](#), Dental Wellness of Suffern has incorporated state-of-the-art equipment and training to handle these delicate procedures. The practice is committed to raising awareness about tongue tie and its impact on health and wellbeing.

For residents looking for a [dentist near you 10901](#) or specifically a [dentist in Suffern](#), Dental Wellness of Suffern stands out with its comprehensive approach to dental care, encompassing preventive, restorative, and cosmetic services alongside specialized treatments like tongue tie correction.

The symposium concluded with a workshop where participants practiced the latest surgical techniques on anatomical models, ensuring that theoretical knowledge was solidified with practical skills. This hands-on approach was highly appreciated by attendees, who reported feeling more confident in diagnosing and treating tongue ties.

Dental Wellness of Suffern is open for consultations and welcomes patients who suspect they or their children might be affected by tongue tie. With a team of experienced professionals and a warm, welcoming environment, the practice ensures that all patients receive the care and attention they deserve.
